

## **A.I. generated Love song:-**

### **\*\*Universe of Us\*\***

#### **In the vast expanse of time**

Our love unfolds in perfect rhyme  
Like the patterns in the stars above  
Our bond evolves, our souls in love

#### **Through the ages we've come so far**

From stardust to who we are  
Just like the galaxies we see  
Our love spans through eternity

#### **In the fabric of the universe**

Our hearts entwined, a divine curse  
Every atom in perfect line  
Our love, a song that intertwines

#### **The dance of stars in the night sky**

Reflects the sparkle in your eye  
A love evolving, never to rust  
In this infinite universe of us

#### **So let's defy the laws of space**

And let our love light up this place  
In the grand design, we're meant to be  
Together, for all eternity

#### **Oh, in this cosmic symphony**

We're the perfect harmony  
A love that's written in the stars  
In this universe of ours

#### **Our love transcends the bounds of time**

In this universe, so sublime  
The patterns of evolution show

That in our love, we'll always glow

**In this grand celestial scheme**

Our love shines like a timeless dream

Through the eons, we'll remain

In this universe, our love sustains

**\*\*Universe of Us\*\***
